### Who are we?

We're a market leader in acquiring and managing vulnerable customers, helping them to find an affordable solution and sustainable pathway to clearing their outstanding debts. Having built a solid reputation for being the specialist in our sector, we've won some pretty impressive GOLD standard awards over several years from "Investors in People" and "Investor in Customers".

If you want to hear what our customers and colleagues are saying about us, why not visit our website [www.lanternuk.com](http://www.lanternuk.com).

### What will you be doing?

You'll be joining a friendly contact centre, where your role will focus on helping our customers find a sustainable solution to managing their personal debt. You'll use a variety of contact methods, including telephone and digital channels, so you'll need a warm and friendly telephone manner and experience using digital communication systems such as web chat and email.

You'll be helping customers to work out an affordable payment plan, so you'll need to be a good listener and a considerate negotiator too. You'll also help to resolve any customer queries, following our clear and compliant procedures to ensure we always reach the best customer outcome.

We'll give you the best start in your role with a 6-week bespoke training program, delivered and supported by our amazing team of learning specialists and operational coaches. This will give you the confidence to join the operation and provide you with everything you will need to succeed.

### What you'll need

- A passion for delivering great customer service experience, but not necessarily from a contact centre background.
- Ability to demonstrate strong communication skills and an excellent telephone manner.
- Sharp active listening skills and close attention to detail.
- Ability to demonstrate our values, putting the customer at the heart of everything you do.
- Be determined and comfortable working towards quality targets and KPIs.
- Self-motivation and a strong ability to work independently and as part of a team.
- Have a flexible approach and be happy to work on a 4-week rota.
- Strong computer literacy and confidence in new technology systems - we can teach you how to use our systems, but MS office / 365 / MS Teams skills are important to us.
